WORK HISTORY

Dec 2022 - Jul 2025
Full Stack Developer
Cozum Makina - Remote

- Reviewed and optimized existing codebases, identifying and resolving bugs to improve overall application performance and stability.
- Collaborated cross-functionally with designers, frontend developers, and product managers to deliver scalable, maintainable features on time.
- Participated in team planning sessions, contributing ideas on architecture, UI/UX improvements, and project timelines.
- Designed and integrated scalable RESTful and GraphQL APIs in coordination with frontend teams, ensuring smooth data flow and system performance.
- Engineered end to end IoT systems using technologies such as Node.js, Express.js, Next.js, React.js, Vue.js, CodeIgniter 5, MongoDB, MySQL, Python, Docker, Tailwind CSS, and GraphQL.
- Translated business requirements into clear technical specifications and project plans, ensuring alignment with client expectations.
- Mentored junior developers, providing code reviews, technical guidance, and hands-on training to enhance team skillsets and code quality.

Feb 2022 - May 2022
Full Stack Developer
Extramus.eu

- Reviewed code, debugged problems and corrected issues.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Worked with back-end developers to design APIs.
- Used PHP Laravel, Sequelize and MongoDB to develop and manage databases.
- Developed clear specifications for project plans using customer requirements.
- Mentored junior members and delivered training to boost team skills set.

Jan 2019 - Jun 2019
Web Developer
E2 Design

- Developed user interfaces with modern JavaScript frameworks, HTML5 and CSS3.
- Troubleshot and debugged code ensuring compatibility with devices, browsers and operating systems.
- Wrote custom HTML and JavaScript for existing websites.
- Used content creation tools and digital media to design web sites.

EDUCATION

Jan 2024
Bachelor's Degree: Management Information Systems
Anadolu University

Jan 2021
Associate of Applied Science: Computer Programming
Eskisehir Technical University

Jan 2020
Bachelor's Degree: Information Technology and Computer Science
Vilnius University

Jan 2020
Associate of Applied Science: Computer Programming
Istanbul Aydin University
